Summary

Marguerite Allen, is an Entrepreneur, Project Manager, and Interior Designer based in the Atlanta area. She has been in the Interior Design Industry for over 20 years and was originally based in South Florida where she managed her own firm, Interiors by Marjani. Her Clientele included Hotels, Churches, Daycares and Homeowners. She also specializes in Silk Floral Arranging and her work has been showcased at many Miami and Ft Lauderdale Home Shows.

After living in Florida for 20 years, she moved to Atlanta to purchase ServiceMaster, a Restoration Franchise specializing in Water Damage, Fire Damage, and Mold Remediation. The franchise grew tremendously and was sold after 8 years of being a successful franchise, ranking in the top 50 ServiceMaster Franchises in America. Upon selling ServiceMaster, Marguerite focused more on interior design and began her own firm, Georgia Professional Interiors where she did Commercial and Residential Interior Design and Home Renovations. After the successful completion of the residence of one of her High Profile Clients, the owner of an International Cabinet Supplier, she was hired as a Senior Project Manager, Showroom Manager, and recently as the Granite Department Manager for its Norcross Operations. With a Master's Degree in Management, and over 20 years of Interior Design experience, in just over 3 months the Granite Division under Marguerite's leadership has generated over \$500,000 in sales and expects to see steady growth at a rapid rate in the upcoming 3-5 years.

Marguerite has a more traditional approach to design where she utilizes less computer generated methods and prefers a more "hands-on approach with her customers". Customers are able to see, touch and experience actual design elements in the home. It is this approach that is appreciated by all her Clients, as she involves them in the Design strategy as much as they require.
